

Problem Statement/Assignment 0

Algorithmic Trading Winter Project
Finance And Analytics Club, IIT Kanpur

December 7, 2024

Question 1. Looking to start your winter camp? Your first assignment(or the zeroth, if we say) is here for you. To start, you are required to watch a movie or web series from the list given in the assignment and prepare a Google Doc about finance-related concepts, terms, or anything you learned from that movie or web series.

We suggest that you pick a movie (or series) you have not seen to ensure that you learn something new. Preparing at least one document is compulsory for everyone.

The Big Short	Billions	The Wolf of Wall Street
Industry	Moneyball	Bad Banks

Brownie Points: Make memes out of your gathered knowledge from the above assignment. The one with the best meme will be treated by us, i.e. the mentors. You are obviously encouraged to make more than one meme.

Enjoy the assignment!!

This assignment is for you to build your interest in finance and prepare you for the upcoming camp, which will start soon.
